

# VECTOR G2 CRB

# KRISS®

The KRISS Vector is the ideal choice for shooters seeking a controllable, compact weapon system. Available in popular calibers such as 9mm, .40 S&W, .45 ACP, and 10mm, the KRISS Vector is compatible with full size Glock® magazines, which allows shooters to share ammunition between their handgun and KRISS Vector. The KRISS Vector fieldstrips without the use of tools by simply removing 4 takedown pins to separate the major components for maintenance.

#### INCLUDES:

- > Low profile folding sights
- > Ambidextrous safety
- > 6 position M4 stock
- > Glock® magazine compatibility

#### KRISS SUPER V RECOIL MITIGATION SYSTEM

At the heart of every KRISS Vector centerfire platform is the KRISS Super V System. The nonlinear operation is unlike any other, providing a shooter enhanced control through reduced felt recoil and muzzle climb. The low bore axis also provides control by aligning the bore directly in front of a shooter's hand. Combining both the KRISS Super V System and a low bore axis, the KRISS Vector allows for faster recovery between shots and increased speeds when transitioning between targets
